

## Quassel IRC - Bug #379

URL's are quoted before being opened when clicked on

10/30/2008 01:15 AM - sph

|  |                |                        |           |
|--|----------------|------------------------|-----------|
| <b>Status:</b>   | Resolved       | <b>Start date:</b>     |           |
| <b>Priority:</b>   | High           | <b>Due date:</b>       |           |
| <b>Assignee:</b>   | Sputnick       | <b>% Done:</b>         | 0%        |
| <b>Category:</b>   | Quassel Client | <b>Estimated time:</b> | 0.00 hour |
| <b>Target version:</b>   | 0.3.1          | <b>OS:</b>             | Any       |
| <b>Version:</b>  | 0.13.1         |                        |           |
| <b>Description</b>   |                |                        |           |
| This has some unwanted effects on already quoted URL's.  |                |                        |           |
| For example: <a href="http://maps.google.com/?q=norfolk%2C%20uk">http://maps.google.com/?q=norfolk%2C%20uk</a> |                |                        |           |
| When clicking on that URL in quassel, the "%" sign will be escaped and replaced by "%25".                      |                |                        |           |
