Quassel IRC - Bug #1318

Cannot use Quassel after upgrade to 0.11.0-2

Version:	0.11-pre	**OS:**	Linux

Description

I am using Arch Linux 64bit.

Today I upgraded quassel-client to (0.10.0-1 -> 0.11.0-2) and now when I open it, I am getting the dialog in the screenshot.

Before, I had just the interface and was able to chat in freenode without any modifications. I even had some channels set up.

Any idea how to solve this issue?

Thanks,

The problem has been solved by installing monolitic package from Arch Repositories.

- Status changed from New to Resolved

Resolved at the user's request. (Almost 7 years later, sorry!)
