Quassel IRC - Bug #707

Cannot bring quasselclient back from tray (with crash)

05/27/2009 11:57 AM - thomas

Status:	Resolved	**Start date:**	05/27/2009
Priority:	High	**Due date:**	
Assignee:		**% Done:**	0%
Category:	Quassel Client	**Estimated time:**	0.00 hour
Target version:	0.6.0		
Version:	0.5.0	**OS:**	Linux

Description

I didn't want to attach this to bug #701 as this is quite a different situation.
I'm currently using KDE trunk with Qt 4.5.1
When I exit quasselclient when it's minimized to tray I can't restore it from tray when quasselclient is restarted.
The only possiblity I have to use quasselclient after this is removing ~/.config/quassel-irc.org/quasselclient.conf

Reproduce:

- Hide to tray
- Quit quasselclient (right click tray icon ~~> Quit)~~
Start quasselclient
- Restore quasselclient from tray
crash

History

#1 - 05/27/2009 11:58 AM - thomas

Quasselclient Version: v0.4.0 [+179] (git-fed4298*)

#2 - 05/27/2009 12:12 PM - thomas

Seems to be a duplicate from #663

#3 - 06/04/2009 01:00 PM - seezer

Could you try unhiding quasselclient before connecting to a core?
Seems to be a better workaround than throwing away settings.

#4 - 02/24/2010 06:57 AM - johu

- Status changed from New to Resolved

- Target version set to 0.6.0

- Version changed from 0.5-pre to 0.5.0

cant reproduce it with 0.6 beta, should be fixed
