| Description | | | |
| Hello everyone. | | | |
| I changed one network, and deleted another. When i pressed the "apply" button, the core crashed, leaving several poor guys without irc for at least 5 minutes! | | | |

- Status changed from New to Resolved

I attempted to reproduce this issue on Quassel 0.13.1 on Fedora 34 (core and client), and was unable to do so.

I'm going to assume that this bug was fixed at some point in the last 10 years.

If the bug pops back up, please feel free to reopen the ticket.
