

Quassel IRC - Bug #1041

Font dialog does not work in OS X

12/10/2010 01:42 PM - incandenza

Status:	Closed	Start date:	12/10/2010
Priority:	Normal	Due date:	
Assignee:	EgS	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Mac OS X
Version:	0.7-pre		
Description			
Using OS X 10.6.5 and quassel-client 0.7.1.			
Go to Settings -> Configure Quassel... -> Chat View. Check 'Custom chat window font' and press 'Choose...'			
Clicking anywhere in the font dialog produces only a beep. Nothing in the other Quassel windows responds, either. The only thing left to do is force quit the program.			

History

- Assignee set to EgS

#2 - 03/18/2012 12:30 AM - Anonymous

- Status changed from New to Closed

Confirmed to be fixed with newer builds (linked against newer Qt) of Quassel. (e.g. http://koudelka.dyndns.org/quassel/QuasselClient_MacOSX_Universal_0.8-rc1.dmg)
