Quassel IRC - Bug #1207

Exit from tray doesn't save windows state

03/08/2013 11:23 AM - Dayman

Status:	Confirmed		**Start date:**	03/08/2013
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Quassel GUI (Qt)		**Estimated time:**	0.00 hour
Target version:				
Version:	0.9-pre		**OS:**	Windows

Description

Steps to reproduce:

1. Minimize Quassel to tray
2. Issue Exit command from tray
3. Launch Quassel again
4. Optional: maximize window

This doesn't happen if exiting from tray, when main window is open.
I'm adding several screenshots to complement the text.

I don't know if this behavior applies to operating systems different from Windows.

Quassel is built from source with MSVC2010 as a native 64-bit binary with qca, openssl, webkit and phonon included.
Reported version string:

```
Version: v0.9-beta1 (0.9-beta1+2 git-89ae709*)
Protocol version: 10
```

History

#1 - 04/01/2013 05:26 AM - msx

Same here.

Quassel version: 0.8
OS: GNU+Linux
Desktop Environment: KDE SC 4.10.1

#2 - 12/23/2013 08:32 PM - Anonymous

- Status changed from New to Confirmed
