

Quassel IRC - Bug #124

Notices use the Color of Qt Error messages

02/29/2008 09:53 PM - EgS

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Sputnick	% Done:	0%
Category:	Quassel GUI (Qt)	Estimated time:	0.00 hour
Target version:	0.2.0-alpha2	OS:	Any
Version:	0.13.1		
Description			
Setting the color for Notices has no effect on them (maybe on something different? ;)). But instead Notices are displayed in the color of Error Messages.

The color is saved to QtGuiStyle as FormatType NoticeMsg - so probably there is an error with the rendering/displaying.

```
saveColor(QtGuiStyle::NoticeMsg, ui.noticeMessageFG->color()); void ColorSettingsPage::saveColor(QtGuiStyle::FormatType formatType, const QColor &color) { QTextCharFormat format = QtGui::style()->format(formatType); format.setForeground(QBrush(color)); QtGui::style()->setFormat(formatType, format, Settings::Custom); }
```
