

Quassel IRC - Bug #1243

URLs not parsed correctly (accepts invalid chars as part of the URL)

10/04/2013 07:14 PM - krf

Status:	Resolved	Start date:	10/04/2013
Priority:	Low	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.9-pre		
Description			
Example line in IRC: <kgbot> Anmol Ahuja master * [http://git.hades.name/cgit.cgi/amarok.git/commit/?id=8ebcf55] Add missing forward declaration			
Identified URL by Quassel: http://git.hades.name/cgit.cgi/amarok.git/commit/?id=8ebcf55			
The ']' at the end of the string is not a valid char as of RFC 2396 (Uniform Resource Identifier (URI): Generic Syntax).			
Quoting http://stackoverflow.com/a/1547922 : "The '[' and ']' characters are <reserved> characters and should be percent escaped if not used as delimiters in the scheme-specific syntax. The spec says:".			
Hence, the URL should rather be: http://git.hades.name/cgit.cgi/amarok.git/commit/?id=8ebcf55			
I guess there are more problems with other characters, probably just needs fixing of a regexp.

Fix URL regex

Removes unwise characters from URL regex. These characters should be percent escaped according to RFC 2396.

Fixes #1243
