<b>Description</b>			
I can't select multiple buffers in the buffer list at once by shift-clicking in a Qt 5 build of the client. Works in a Qt 4 build. Tested on master branch at 92490c7390f21d59a0df540c4bdcbb1de69e7e8e. Linux and Qt versions 4.8.7, 5.4.2.

I can confirm this. Clicking once switches the current buffer. Waiting long enough to avoid a double click, then clicking again finally does the selection.

Similarly, attempting to select multiple buffers via ctrl-click behaves oddly.
