<b>Description</b>			
<p>There seems to be a regression after some windows 10 update.</p> <p>On quassel 0.12.4</p> <p>new behavior: while hibernating, IRC disconnects and reconnects every few minutes from all channels</p> <p>expected (old) behavior: while hibernating, IRC disconnects</p> <p>To be clear: this has previously worked fine on the same platform with the same version of quassel.</p> <p>"Start date" is approximate.</p>
