

Quassel IRC - Bug #1474

Quassel does not take /setkey in the network Commands

02/06/2018 12:49 AM - gry

Status:	New	Start date:	02/06/2018
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.12.4		

Description

Steps:

1. Add "/setkey #channel foo" to network Commands to execute onconnect
2. Close Quassel and reopen it, then re-connect to the network

Results:

1. Plain text messages are sent in the channel

Expected results:

The encryption key is set correctly, and messages are encrypted

I can't seem to reproduce this issue, at least not in a distributed setup. Are you running a monolithic (client+core) installation, by any chance? Does closing quassel include shutting down the core?

#2 - 09/07/2018 06:39 PM - Alturiak

So, this probably is a duplicate of [#1473](#).
