Description			
cmake/GetGitRevisionDescription.cmake include: 1. Distributed under the Boost Software License, Version 1.0. 2. (See accompanying file LICENSE_1_0.txt or copy at 3. http://www.boost.org/LICENSE_1_0.txt) In Debian (and derivatives) it is much preferred for the full text of the license to be included in the package. Please add this file to the cmake directory. Note: This is true for 0.13.0, but that's not an option in the pull down.
