Char: ☐ - Codepoint: U+26F2 - Name: FOUNTAIN - Category: So - Block: Miscellaneous Symbols			
<b>Related issues:</b>			
Is duplicate of Quassel IRC - Bug #1469: UTF8 Emojis push text downwards		<b>New</b>	<b>01/20/2018</b>

### History

#### #1 - 08/04/2020 03:23 PM - G-Flex

This problem affects seemingly all Unicode emoji, and on the Windows client as well. See bug [#1469](#) - <https://bugs.quassel-irc.org/issues/1469>

That bug was opened 2 1/2 years ago and I added my own details 1 1/2 years ago, so I would not expect a quick fix.

#### #2 - 06/16/2021 07:03 AM - phuzion

- Is duplicate of Bug #1469: UTF8 Emojis push text downwards added

#### #3 - 06/16/2021 07:04 AM - phuzion

- Status changed from New to Closed

Closing as dupe of [#1469](#).
