

Quassel IRC - Bug #2110

Chat buffer scroll position is lost after switching buffers

09/17/2026 08:34 AM - safala

Status:	New	Start date:	09/17/2026
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.13.1		
Description			
Steps to reproduce:			
Open Quassel Client and connect to a Quassel Core.			
Open a chat buffer containing enough messages to require scrolling.			
Scroll up to an older message.			
Switch to another chat buffer.			
Switch back to the original buffer.			
Expected behavior:			
The client should restore the previous scroll position of the chat buffer.			
Actual behavior:			
The chat buffer may jump back to the bottom or lose the previous scroll position.			
Environment:			
OS: [please specify]			
Quassel version: [please specify]			
Client mode: [Monolithic / Client + Core Block Blast]			
Additional information:			
The behavior is reproducible when switching between multiple active chat buffers.

OS: [please specify]

Quassel version: [please specify] <https://www.giftcardmallmygift.biz>

Client mode: [Monolithic / Client + Core [Block Blast](#)]

Additional information:

The behavior is reproducible when switching between multiple active chat buffers.

The scroll position should ideally be preserved when switching between chat buffers, especially when reviewing older messages. Hopefully this can be fixed in a future Quassel update.

[Stickman Hook](#) continues to attract new players because it focuses on something universal: the joy of movement. Every successful swing creates a sense of momentum and freedom that is both exciting and rewarding.
