<b>Description</b>			
This has occurred once, and the reason has yet to be determined. I believe it could be a missing quitmsg. Need to investigate this further.

Implement check for empty quit message, fixing BR #31.

#### History

##### #1 - 05/21/2007 04:34 PM - Sputnik

Think I fixed it by checking for empty quit msg. No testing could be done though.

##### #2 - 05/23/2007 12:49 AM - EgS

As expected the empty quit msg was the reason for the crash.  
Has been fixed a while ago and works for us.

It would be nice if Mr. Sputnik would leave a note when changing bugs to resolved! :)
