<b>Target version:</b>	0.3.1		
<b>OS:</b>	Any		

#### Description

<jussi01> EgS: ok, I have this alias: /quote REMOVE \$channelname \$1 ; /msg chanserv op \$channelname -\$currentnick;  
<EgS> ok, so?  
<jussi01> EgS: I want it that I do the /the-alias nick reason | then the person is removed and there is a reason listed there  
<jussi01> but the reason could be any number of words  
<EgS> the reason would be in the REMOVE part?  
<jussi01> EgS: hrm, Im not certain how it works perfectly, Im trying to get the same as /arn in this script:  
[http://jussi01.com/upload/uploads/auto\\_bleh.pl](http://jussi01.com/upload/uploads/auto_bleh.pl)  
<-> lemmAway is now known as lemma  
<EgS> jussi01: the first param should be the guy to be removed and the rest should be the reason, right?  
<jussi01> EgS: yes  
<EgS> na there's currently no way to do this... :/  
<EgS> could you file a br?
