

Quassel IRC - Bug #371

Initial backlog fetches from inactive buffers (with no unread messages)

10/27/2008 05:49 PM - sph

Status:	Resolved	Start date:	
Priority:	Normal	Due date:	
Assignee:	EgS	% Done:	100%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:	0.5.0	OS:	Any
Version:	0.4.0		

Description

According to the status bar, it fetches 32500 messages from 65 buffers while I only have 13 buffers open. The 52 other, inactive, buffers are old PM's and occasionally visited channels which are not displayed in my bufferlist anymore.

Perhaps a bit too much enthusiasm on Quassel's side? :)

History

#1 - 12/28/2008 01:51 AM - Sputnik

- Priority changed from High to Normal

#2 - 03/24/2009 05:42 PM - EgS

- Status changed from New to Resolved

- Assignee set to EgS

- % Done changed from 0 to 100

- Version set to 0.4.0

- OS set to Any
