

Quassel IRC - Bug #43

Handle /query Command

06/19/2007 09:57 PM - EgS

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	EgS	% Done:	0%
Category:	Quassel Core	Estimated time:	0.00 hour
Target version:	0.2.0-alpha1	OS:	Any
Version:	0.13.1		
Description			
Currently one is unable to start a Query. There is a raw version of Server::handleUserQuery() but there is still work to be done.

History

#1 - 06/19/2007 10:05 PM - EgS

As soon as Sput has finished BR [#41](#) I'll implement the handling of user queries.

If there is objection to my suggestion regarding BR [#37](#) I'm going to treat /msg and /query commands according to my last Note.

#2 - 01/22/2008 02:40 PM - Sputnik

We should at least make /query an alias for /msg before the release; the fact that it does not do anything yet tends to confuse people :)

And btw, [#41](#) has been closed long ago ;)

#3 - 02/05/2008 01:25 PM - EgS

/query now opens always a buffer and stores you're message.

/msg just sends the message to the target without storing it or opening a buffer.
