| Target version: | | OS: | Any |
| Version: | 0.13.1 | | |
| Description | | | |
| <p>A query that has been hidden using "Hide buffers" (not "Hide buffers permanently") does not open again as soon as you open it using /query. Instead, it opens up, as soon as the communication partner answers for the first time.</p> <p>It should open when you type /query.</p> | | | |
