

Quassel IRC - Bug #47

prevent inputline from losing focus

06/22/2007 12:17 AM - EgS

Status:	Resolved	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Quassel GUI (Qt)	Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.3.1+		
Description			
Currently the inputline loses focus when selecting a different buffer and on many other occasions. Thus one has to select the inputline by hand before being able to write again. In my opinion this is not so smooth :)

Revision [dc9de5af386f61e6dc5537d04ccc8aceb8126b21](#) - 01/11/2009 12:46 PM - Manuel Nickschas

InputLine now regains focus on keypress

Pressing any letter, number, or space will automatically focus the input line now.
This compensates for the fact that clicking in the BufferView now takes away focus :)

Fixes #47 and #221.

This could use a bump as it greatly annoys me ;)
Would also fix Bug [#221](#).
