

Quassel IRC - Bug #472

quit on mono-client closes the gui - but process contiues to live ...

01/08/2009 12:32 AM - DeepDiver

Status:	Closed	Start date:	01/08/2009
Priority:	Normal	Due date:	02/16/2009
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.3.1		
Description			
well - as the subject says			
ask if you need more information.			
PS: Ctrl-C and/or kill done help either - only kill -9 does the job			

History

Noone was able to reproduce it.
Please provide as much information as possible.

I'll attach a debugger to the client and see if i can find anything.
I'll let you know asap.

Take care

Tom

- File quassel.kdbg.png added

screenshot of kdbg attached....

the process is stuck in the destructor of QApplication, down somewhere in the QHostInfo class of Qt

Maybe some bug in qt or a missing abort to a running lookup ...

#4 - 01/26/2009 12:06 AM - EgS

Hmm... some thread doesn't want to exit... very strange.

Could you please test it with a clean config? Aka: clear ~/.quassel and ~/.config/quassel whatever/

#5 - 01/26/2009 12:09 AM - EgS

I'm just harvesting through the BRs right now and came across BR [#409](#) which sounds pretty similar.
Therefore more questions:

- 1) did you try stopping the mono build right after the start or after some usage?
- 2) does quitting via menu work?

#6 - 01/27/2009 12:15 AM - DeepDiver

There is no difference in the behavior if i quit right after startup or later.

Following quit ops are working:

- menu >quit
- <Ctrl>-C on console
- <Alt>-F4

Hanging after:

- context menu of the try icon
- double clicking on the title bars icon

hope this helps.

take care,

tom

That question seems to got lost in the notes. Can you please comment on that?

#8 - 02/11/2009 03:43 PM - EgS

- OS set to Any

poke

#9 - 02/17/2009 03:14 PM - DeepDiver

sorry for my late reply.

after cleaning the config dirs it all worked well

THX

Tom
