

Quassel IRC - Bug #479

Can't scroll back to get old backlog if current window isn't full

01/11/2009 11:32 PM - kitterma

Status:	Rejected	Start date:	01/11/2009
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Any
Version:	0.3.1+		
Description			
This is using a git snapshot from yesterday with KDE integration enabled on KDE 4.1.3. If I re-connect to the core and a channel has not had a lot of activity since I last connected that channel window isn't full and there are no scrollbars. So there is no way to start scrolling back and retrieve old scrollbar from the core.

- Status changed from New to Rejected

#2 - 01/13/2009 04:02 AM - kitterma

Why did you reject this? It happened on a Git snapshot from two days ago.

#3 - 01/13/2009 11:25 AM - EgS

the git log of the commit cited:

Fixing BR [#419](#) - Any Action that would normally trigger a scroll in the ChatView triggers now a backlogrequest even if there is no scrollbar visible. (MouseWheel, Page_Up/_Down, Shift Key_Up/_Down)

#4 - 01/13/2009 02:05 PM - kitterma

OK. I don't recall if I tried any of those. I'll try and see when it happens again. Thanks.
