

Quassel IRC - Bug #488

Don't specify -DDATA_INSTALL_DIR and friends for -DWITH_KDE

01/16/2009 07:10 PM - Sputnik

Status:	Resolved	Start date:	01/16/2009
Priority:	Normal	Due date:	
Assignee:	Sputnick	% Done:	100%
Category:	General / Unspecified	Estimated time:	0.00 hour
Target version:	0.4.0	OS:	Any
Version:	0.3.1+		
Description			
<p>As apachelogger found out (thanks), the KDE buildsystem won't overwrite install locations if they're already set. Hence, we shouldn't set them in that case.</p> <p>Also, we need to pimp our data file finding algorithm to use KStandardDirs in that case (needs to move out of common/ then), or specify the full path to the chosen data dir as an env variable (but I do see problems with prefixes there).</p>
