

Quassel IRC - Bug #508

Buttons are not translated in a static build of Quassel.

02/01/2009 03:08 PM - Datafreak

Status:	Resolved	Start date:	02/01/2009
Priority:	Normal	Due date:	
Assignee:	Sputnick	% Done:	100%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:	0.4.0	OS:	Any
Version:	0.3.1+		
Description			
If I build Quassel static on Windows, then the buttons are only in my Buildbox in German. On a PC without Qt are the buttons in English. The problem I have with my Quassel-Build and Phon's Quassel-Build. Could it be that the translation of Qt is not build in the static?

Revision 318483ddb3de556a4014cb2d5b5e6cd58b0718e2 - 02/12/2009 10:33 AM - Manuel Nickschas

Search for and include Qt translations in static builds

When building statically, this looks for Qt translations at build-time and embeds them in the binary. Thus, buttons and other standard elements should be translated even with no Qt installed on the target system.

Fixes #508.

#2 - 02/12/2009 12:43 AM - Sputnick

- Status changed from New to Assigned
- Assignee set to Sputnick
- Target version set to 0.4.0
- OS set to Any

Need to copy Qt's translation files into our resource for a static build, as likely no Qt is installed on the target system.
