

Quassel IRC - Feature #543

Show status buffer on startup if a network is connecting/connected

02/11/2009 09:17 PM - Sputnik

Status:	Resolved	Start date:	02/11/2009
Priority:	Normal	Due date:	
Assignee:	EgS	% Done:	100%
Category:	Quassel GUI (Qt)	Estimated time:	0.00 hour
Target version:	0.4.0		
OS:	Any		

Description

Instead of the logo page, select the status buffer of the first configured network on startup. We probably should do this only if the network is connecting or already connected, such that the user does not see a blank ChatView with nothing happening though.

If no network is currently connecting/connected, show the logo page and switch to the status buffer as soon as the user initiates a connection.
