

Quassel IRC - Bug #556

Better defaults for coloredsender

02/16/2009 08:42 AM - Rasi

Status:	Closed	Start date:	02/16/2009
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	General / Unspecified	Estimated time:	0.00 hour
Target version:	0.5.0	OS:	Any
Version:	0.3.0.x		
Description			
The default colors of coloredsender are partly unreadable. Quassel (in default config) has a white background and some very light colors cannot be read at all.			
Also some of the colors are not visible, if you get highlighted (Again, with Quassel's default highlight color)
