

Quassel IRC - Feature #618

Add an option to send auto-identify as server pass instead of to NickServ

03/12/2009 02:03 PM - TerrorBite

Status:	New	Start date:	03/12/2009
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Client	Estimated time:	0.00 hour
Target version:			
OS:	Any		
Description			
For example, a checkbox that will switch the auto-identify from sending a PRIVMSG to NickServ, to instead identifying upon initial server connection.

To clarify:

In the "Networks" settings, under the "Auto Identify" tab, I propose that a checkbox be added within the "Auto Identify" groupbox, probably above or to the right of the "Service:" textbox, that reads "Send as server password" or so. Selecting this would disable the "Service" textbox.
