

Quassel IRC - Bug #699

cannot build quassel

05/19/2009 11:17 PM - ChemBro

Status:	Rejected	Start date:	05/19/2009
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		OS:	Linux
Version:	0.5-pre		
Description			
The build from today (19th May) doesn't want to compile.			
I'm using KDE 4.2.3 and Arch Linux/Chakra/KDEmod and I'm using these commands:			
<code>cmake -DWITH_KDE=ON -DCMAKE_INSTALL_PREFIX=`kde4-config --prefix` ..</code>			
<code>make</code>			
See attachment for consoleoutput.			

History

#1 - 05/22/2009 01:04 AM - EgS

- Status changed from New to Rejected

That pretty much breaks it down:

In Datei, eingefüt von /home/christian/quassel/src/uisupport/action.cpp:23:

/home/christian/quassel/src/uisupport/action.h:73:19: Fehler: KAction: Datei oder Verzeichnis nicht gefunden

Make sure your KDE sources are installed and can be found.
