

Quassel IRC - Bug #707

Cannot bring quasselclient back from tray (with crash)

Description

I didn't want to attach this to bug [#701](#) as this is quite a different situation. I'm currently using KDE trunk with Qt 4.5.1

When I exit quasselclient when it's minimized to tray I can't restore it from tray when quasselclient is restarted. The only possibility I have to use quasselclient after this is removing `~/.config/quassel-irc.org/quasselclient.conf`

Reproduce:

- Hide to tray
- Quit quasselclient (right click tray icon > ~~Quit~~)

Start quasselclient

- Restore quasselclient from tray

crash

History

#1 - 05/27/2009 11:58 AM - thomas

Quasselclient Version: v0.4.0 [+179] (git-fed4298*)

#2 - 05/27/2009 12:12 PM - thomas

Seems to be a duplicate from [#663](#)

Could you try un hiding quasselclient before connecting to a core?
Seems to be a better workaround than throwing away settings.

- Status changed from New to Resolved
- Target version set to 0.6.0
- Version changed from 0.5-pre to 0.5.0

cant reproduce it with 0.6 beta, should be fixed
