<b>Description</b>			
About Quassel says: Version: v0.5-pre (0.4.0+205 git-4eba801) Since v0.4.1 is the most recent version, this should also be the version for git and not 0.4.0			

### History

#### #1 - 08/03/2009 09:25 PM - dalbers

The current development branch aka git master does not base on 0.4.1.  
gitk visualizes this:

```
gitk 0.4.0..0.4.1 0.4.0..origin/HEAD
```

#### #2 - 08/12/2009 09:37 PM - Sputnick

- Status changed from New to Rejected
- Assignee set to Sputnick
- Target version set to 0.4.3

As said before, git master is based on 0.4.0, hence the versioning is correct. We have changed the user-visible string to something less confusing though. Rejecting this.
