Quassel IRC - Bug #986

quassel crashes with signal aborted after trying to open debug log

06/07/2010 02:46 PM - txwikinger

Status:	New		**Start date:**	06/07/2010
Priority:	Normal		**Due date:**

Category:			**Estimated time:**	0.00 hour
Target version:				
Version:	0.4.3		**OS:**	Any

Description

I am using quassel-core on a server and quassel-client on a desktop computer. After quassel-client could not connect to the core (the status line says connected, but no network status or channel history is loaded), the quassel-client
falls back into not connected mode. This can be repeated a number of times. In order to debug, I tried opening the debug log and this crash occurred.
